Your Partner for Secure Information Systems

Our Services for You at a Glance

„Technology evolves
from the primitive
to the complicated
to the simple."

(Antoine de Saint-Exupéry)

WecSec develops individual solutions for you to reliably protect your intellectual capital as well as your and your customers' data.

We prepare you for crisis situations and accompany you on the way to important certifications that strengthen your competitiveness and reputation.

We are your partner for the following services, which may also be combined into complex package solutions on request.

Information Security

Uninterrupted Operation in the Event of a Fault

Information Security Management Systems (ISMS)

- We develop rules and regulations based on the ISO/IEC 27001 standard in a minimally invasive way and together with you,
- implement the specific requirements of your industry such as TISAX (automotive), BAIT (banking industry)
- and VAIT (insurance). In doing so, we intervene as little as possible in your work processes and documentation,
- draw up risk analyses and risk management systems,
- specify the necessary requirements for your technical systems,
- document these processes,
- accompany you on the way to the desired certification or testing, and
- support you with post-certification if required.

Business Continuity Management (BCM)

- Analysis of your operations with a view to disruptions caused by IT failures, fires, pandemics, and other crises,
- Risk analysis to identify and assess critical operations that must not be brought to a standstill under any circumstances,
- Analysis of which risks can be excluded or minimized and how, or are unavoidable,
- Development and documentation of a rules and regulations to maintain critical operating in the event of incidents,
- Stress tests

Project Management

Complete Packages

Graphical Path Method (GPM) / PRINCE 2

- We control and accompany your information technology projects with a view to resilience, migration, adaptation to new data protection and information security requirements et cetera up to an integrative multi-project management.
- As a rule we work according to the Graphical Path Method (GPM, if required also according to PRINCE2.

Integrated Management System (IMS)

Our different packages can easily and flexibly be combined to Integrated Management Systems (IMS): professional solutions from a single source with clear price advantages.

In addition, you can also extend our different packages to include the following services:

- Data protection management
- Provision of an "external Information Security Officer" (eISO) or "External Chief Information Security Officer" (eCISO)
- Quality Management System (QMS, ISO 9001)
- Network Management

The WecSec Group

We are here for you

The Wecsec Group combines around 30 years of industry experience in its team. With its employees in Germany, Malta and the USA, the group serves international clients from the insurance sector, the gaming industry, the automotive supply sector and other economic segments.

Relevant, state-of-the-art expertise, customer orientation and team spirit are among the central values of the WecSec Group.

Founder Torsten Weckbrodt studied business informatics in Dresden and worked in the public sector as well as for well-known auditing organisations. In 2018 he founded WecSec - an agile, internationally oriented and fast-growing group of companies with excellent references.
